THE SEA COAST ECHO, FRIDAY, AUGUST 26, 1927

THIRTY-SIXTH YEAR, NO. 85.

### BILBO IS NOMINATED AS NEXT GOVERNOR FOR STATE OF MISSISSIPPI

Former Governor Has Safe Margin, With Adam Slightly Leading—Race For Lieutenant-Governor Might Necessitate Official Count For Result.

JACKSON, Miss., Aug. 24.—With fifteen precincts missing, the margin of Theodore G. Bilbo's lead over Governor Dennis Murphree in the run-off primary for the Democratic gubernatorial nomination had widened to more than 10,000 votes.

With fifteen precincts missing in nine incomplete counties, Bilbo had 141,075; Murphree 130,559.

JACKSON, Miss., Aug. 24.—With 28 precincts missing, Bidwell Adam, of Gulfport, again had leaped into the lead over M. P. Lowery Love, of Hattiesburg, in the run-off primary for the Democratic nomination for lieutenant-governor.

Fifteen hundred and twenty-two precincts gave Adam 130,676; Love 129,977.

JACKSON, Miss., Aug. 24.—An official count is expected to be necessary to decide the winner of Tuesday's second primary race for lieutenant-governor of Mississippi between Bidwell Adam, Pass Christian attorney, and Acting Lieutenant Governor M. P. Lowery Love, of Hattiesburg, but returns tabulated to night gave Adam a safe lead over Governor Theodore G. Bilbo, of Poplarville, a safe lead over Governor Dennis Murphree for governor and indicated victory for R. D. Moore, who sought reelection as land commissioner, over E. B. Reynolds.

With twelve precincts out of 1537 not reported for governor and returns for lieutenant-governor and land commissioner less complete, the vote was:

For governor:	
Bilbo	143,852
Murphree	135,279
For lieutenant-governor:	
Adam	137,037
Love	135,774
For land commissioner:	
Moore	95,098
Reynolds	90,567

"I am the happiest man in the state of Mississippi today," Mr. Bilbo said this afternoon. "During all my experience in politics over a period of twenty-four years, this is the greatest victory I ever have won, because of the great odds against me; it undoubtedly was the hottest fight in the history of the state. Figures now show that my majority is nearly 10,000 votes. I think it will reach 12,000 when all official reports are in."

The political battle just over is expected to have a far-reaching effect in Mississippi politics, probably affecting the fates of the two present United States senators. In 1928 the junior senator, Hubert D. Stephens, of New Albany, Union county, will go before the voters for re-election. Regarding his own political fortunes, Senator Stephens took the stump for Governor Murphree, making the final speech for the Calhoun candidate in Jackson Monday night.

It is expected that Senator Stephens will have a hard fight, for the year Congressman T. Webster Wilson, of the Sixth District, who kept silent during the gubernatorial fight, although it was rumored that he favored the chances of Bilbo, and it is expected that he will have Bilbo's support in his battle for the higher office.

That Bilbo now has his eyes on the United States Senate is well known in Mississippi political circles. That he will jump into the ring in 1930 for Senator Pat Harrison's seat is a prediction heard frequently, now that his battle for another term as governor has been won and his political strength in the state maintained.

### HOME DEM. AGENT RETURNS FROM A. & M. HOME COURSE

And Has Successful Term—Nine Members of Hancock Club Attend—Local Agent Had Charge of Hall With Fifty Girls—Hancock Active.

Hancock county's home demonstration agent, Miss O'Don, returned to Bay St. Louis Monday from the Boys' and Girls' 4-H Club Congress, held at A. & M. College, Miss., July 23-30, inclusive.

Miss O'Don instructed two classes a day on subjects of interior decoration, dealing largely with floors and floor covering, window and window treatment, and reports a wonderful example of co-operation on the report of Maison Blanche, department store at New Orleans; also, Armstrong Cork and Linoleum Company, of New Orleans. She says there was seemingly no limit to the material they sent for her demonstration—all for the asking.

She also had charge of one of the halls, rooming fifty girls in the evening, and so extending her duties as housewife were her duties that she seemed rather glad the course only lasted one week.

Hancock county has nine representatives at the congress, including the agent. The adjoining counties had five and the third Jackson county, had none.

"Hurrah for Hancock! In '28 we want twenty-five, at least," says Miss O'Don, "and are going to have them."

### For Waveland Church Benefit

A benefit entertainment will be given this coming Saturday and Sunday nights at Waveland Hall, for the benefit of the Altar Society, St. Claire's church, Waveland.

There will be no charge for the entertainment, but donations will be charged 50 and 25 cents for

### EUGENE FLY, MISS. POWER CO. SHOWS ACTIVE IN HANCOCK

Lines and Other Equipment Rebuilt and Vast Improvement Is Result.

RECONSTRUCTION OF LINES IS GENERAL

Cable to Serve Bay St. Louis to Be Carried By Auto Bridge When Finished.

The Mississippi Power Company was formed and began operation January 1, 1925, and after a period of several months' research during which time expert electric engineers and experienced men in construction work were called into consultation, a comprehensive system of improvements was decided upon along the Coast to care for production of light and power at the time and also to look forward to future developments.

Engineers of the company were called together in September, 1925, and began making plans which ultimately resulted in greatly increasing the efficiency of the system along the entire Coast at a cost of several hundred thousand dollars.

Routes for lines which would fit in with future developments were selected and placed into one general system centering at Gulfport to be supplied by the big central plant until hydro-electric power can be brought in from the Coosa Dam and other large power plants controlled by the company.

The principal improvements made were as follows:

The line serving Pass Christian was reinsulated to care for a double voltage; substations were constructed at Long Beach and Pass Christian, and a line extension was made to serve the Pine Hills Hotel and substation was constructed at Pine Hills. This line was routed in such a manner that a tap could be taken off at it to serve Bay St. Louis and the Bay St. Louis distribution system was revamped in order to take care of this line extension.

Mr. Fly's announcement, issued today, was embraced in the following statement:

"I will be a candidate for Congress from this district next year."

"In reaching this decision, which breaks a resolution of long standing not to engage in politics on my own account, I am influenced by two considerations."

"First, having had opportunities during the past few months to become better acquainted with the varied needs of the district, which will become increasingly important as the future of assured development and progress unfolds, I am impelled by the thought that the district's representative in Congress can render real service if he goes about his work in an intelligent and industrious manner."

"Secondly, friends from every section of the district have been kind enough to suggest that I would make a good Congressman, and have assured me of their active support in the event I should become a candidate. These generous expressions have been sufficiently numerous and sincere to lead me to believe that I can be elected."

"I appreciate the fact that the people have had enough of politics for this year, at least, and my purpose in making this statement at this time is merely to acquaint my friends with my intentions. At a suitable time I shall formally announce my candidacy and conduct as thorough campaign as possible."

Hancock County On "Know Mississippi Better" Train

An exhibit of kumquart preserves was sent by a local demonstration agent, Miss M. O'Don, to Mrs. Della L. Luter, of Jackson, district agent for South Mississippi, to go on the "Know Mississippi Better Train," leaving Jackson this Friday morning and to cover a most extensive itinerary over the West and Pacific Coast, yet ever undertaken by a similar advertising expedition.

The Echo is glad to note Hancock county is not lagging behind, but on the contrary, will represent the Coast products of Mississippi throughout the West by Mississippi advertising. Hancock is always to the fore, and is on the way to soon be one of the best known and advertised counties in the State. Its men and women are red-blooded, up and doing, ambitious and surely are not lagging.

### To Celebrate Anniversary.

Bay St. Louis is quite proud of its different fraternal and benevolent associations. Of these none less than the Maccabees, to celebrate the 17th anniversary with a ball at W. O. W. Hall on the evening of Monday, Sept. 18, Labor Day, dance, race and other will be arranged to return.

Should 172 and will be in attendance. The committee of arrangement is composed of: Thomas Machado, chairman; John Damborino, Ben Star, Joseph Polkman, Fred E. Fayard, and others.

Bay St. Louis Maccabees, Tent No. 167, had their 17th anniversary celebration at the banquet at the hotel, near Henderson Point. The first nine holes of this course have been completed and the entire eighteen holes will open and ready for play during the coming winter season, according to the 5th Annual Convention of the National Golf Course, Inc., at Johns River, Ga., where the course was established as Pine Hills, Gulf Hills and Edgewater Golf.

A sixth 18-hole course is now under construction at Pass Christian, near Henderson Point. The first nine holes of this course have been completed and the entire eighteen holes will open and ready for play during the coming winter season, according to the 5th Annual Convention of the National Golf Course, Inc., at Johns River, Ga., where the course was established as Pine Hills, Gulf Hills and Edgewater Golf.

The auspicious occasion was to honor a visit from E. H. Palmer, former state commander, who is on the Gulf Coast for his vacation, accompanied by Mrs. Palmer, and every point of the Coast he has been similarly received. There were quite a number.

D. C. Cochran, present state commander, was also present, and presided at the banquet. R. C. Engman is commander of the tent.

Among those present were: R. C. Engman, P. J. Boudin, Thomas Machado, Ben Star, Jos. Cospolich, John Damborino, Fred E. Fayard, Jos. J. Seaford, Dominick Choina, John Rutherford, Raymond Bourgeois, Neville Choina, Eddie Carver, Andrew Carver, John M. Farve, Duera W. Bourgeois, Victor Farve, Victor A. Laurant, O. M. Villere, Alfred J. Arnold, J. J. Schwall, Jr., C. L. Henry, Geo. Ellis, John McArthur, Joseph Fautetta, Joseph N. Bourgeois, Sidney Carrio, Edgar Bourgeois, Lucien Favre, Anthony Benigno, Thomas Luc, Henry Lang, Thomas Lafontaine, Jules LaFrance, Theodore Lafontaine, A. P. Loiacano, Antoine Sautier, Forest A. Bourgeois, J. G. Scalfidi, Forrest S. Farve, Albert H. Johnston, W. T. Hobbs.

Visiting Members—E. H. Palmer, D. V. Cochran, A. W. Lang, G. Henning, C. F. Orr, J. H. Weeks, W. F. Dimming, Robert Gernon, Jr., A. P. Smith, A. L. Green.

New Members—Rogers Ladner, Alfred Bourgeois, Eddie T. Fayard, Edwin W. Guidroz, George S. Kuykendall.

Mrs. Richard Dougherty Passes Away.

Mrs. Richard Dougherty died at her home at 209 Second near State street, at 11:45 o'clock Wednesday night, from a sudden ailment resulting from ptomaine poisoning, and is survived by her husband and several children.

Mr. Dougherty had been out on the reefs on one of his periodical fishing trips and reached home shortly after she had passed away.

The funeral will take place from the late residence this Friday afternoon at 5 o'clock, interment, St. Mary's cemetery.

News of Mrs. Dougherty's sudden death was quite a shock to the community, and her demise has brought general sorrow.

### MISS. POWER CO. SHOWS ACTIVE IN HANCOCK

Lines and Other Equipment Rebuilt and Vast Improvement Is Result.

RECONSTRUCTION OF LINES IS GENERAL

Cable to Serve Bay St. Louis to Be Carried By Auto Bridge When Finished.

The Mississippi Power Company was formed and began operation January 1, 1925, and after a period of several months' research during which time expert electric engineers and experienced men in construction work were called into consultation, a comprehensive system of improvements was decided upon along the Coast to care for production of light and power at the time and also to look forward to future developments.

### 4-H CLUBS ACTIVE IN HANCOCK

Congress of County Club Boys and Girls Held at A. & M. College.

STORY OF ORIGIN OF THE 4-H CLUBS

Nine Members Return to Hancock County Brimful of Enthusiasm.

Last week at the A. & M. College in Mississippi more than eleven hundred boys and girls held a week's congress of the 4-H Clubs of the state, at which Lee County led in numbers with an attendance of 60 and a 13-piece band to cheer the young workers on. It was significant that the girls out numbered the boys in registration, but all of both sexes heartily fulfilled the camp motto: "Work Hard, Play Hard and Obey Instructions."

This opportunity of team work furnished the Mississippi club boys and girls a five-day course in agriculture and homemaking. The boys' program included stock, cotton and corn judging and demonstrations in agricultural work. The girls' program included canning, sewing, interior decoration, poultry judging and treatment, sewing and rug making.

The athletic exercises were supervised by Miss Midcliff, supervisor of recreation in Memphis public schools. The pep meetings and community singing were most capably supervised by Miss Peters, director of music for the Delta district. The health examinations were as heretofore in the very capable hands of Dr. Hardie Hays of Jackson, while the chapel periods were filled with good things.

Such speakers as Dr. Long from Memphis, Judge Camille Kelly, Judge of the Juvenile and Domestic Relations Court of Memphis, and the only woman judge in the South, J. W. Hill, from the Washington office and other dignitaries, were present.

The 4-H Clubs had its origin in our sister state, Louisiana, and today represents the largest organization of boys and girls in the world.

It was organized there by Dr. Seaman A. Knapp, a native of Louisiana and a member of the U. S. Department of Agriculture. It was through his success with these clubs and his subsequent efforts to make them a national influence that Congress was induced to appropriate funds for the work by means of the Smith-Lever and Smith-Hughes Acts.

In the State of Mississippi, farm demonstrations and home-making work is maintained by national, state and county appropriations and though there are now 46 agents regularly employed in Mississippi, there are still ten counties with their county appropriations made waiting the state to meet with their appropriations, that they may have the services of an agent. And still 26 more counties that make no appropriations for such necessary means of rural progress.

The very name of 4-H Clubs speaks the highest energies, not only among farm boys and girls, but among those in town who will qualify for membership.

For those 4-H's imply a sequence of forces that make rural progress. The first H stands for the cultivation of the head in right thinking; the second of the heart in right feeling and action; the third of the hand in service, industry and the fourth of the health and better living.

Those 4-H clubs are wholesome antidote for that other modern movement of American youth known as the 4-A's, which boasts itself to be the American Association for Advancement of Atheism, while the aims of the latter organization is the destruction of right thinking, those of the 4-H clubs are constructive for they engage head, heart, hand and health in the upbuilding of a life more abundant.

For those 4-H's imply a sequence of forces that make rural progress. The first H stands for the cultivation of the head in right thinking; the second of the heart in right feeling and action; the third of the hand in service, industry and the fourth of the health and better living.

### MISSISSIPPI GULF COAST CALLED MECCA FOR GOLF DEVOTEES ALL THE YEAR

Opinion of National Authority—Party Will Leave Chicago For Coast January 23—Two Hundred Golfers to Participate in Pilgrimage.

FRED A. WRIGHT ELECTED VICE-PRES'T BAY ROTARY CLUB

Succeeds John Osoinach, Resigned—Rev. Nelius Dowling, of Clarksdale, Guest—Principal Speaker of Evening—Pays Tribute to Bay City.

At the regular weekly meeting of the Rotary Club Wednesday evening, Rev. Father Nelius Dowling, formerly of Bay St. Louis, but now of Clarksdale, was the principal speaker of the evening, paying tribute to the people of Bay St. Louis who, he said, made possible the many improvements he noted on all sides since last here.

Father Dowling also took occasion to tell of the appalling flood damages in the Delta section, saying the losses were irreparable and would total into millions of dollars. Many plantations, he said, were ruined with heavy deposits of sand, and the reputed rich soil was sour and would prove detrimental rather than a benefit.

Wednesday was "song evening" and a varied selection of songs by the members resulted, led by President Jas. A. Evans, and later by A. A. Scalfidi, with Fred Wright in the chair.

Guests of the evening were John Dubieux, of Opelousas, La.; A. Palmer, of Bay St. Louis, in addition to Father Dowling.

The resignation of John Osoinach from the club, because his retirement from business cancelled his classification as merchant, left a vacancy in the office of vice-president. Fred A. Wright was unanimously elected vice-president and the vacancy for director filled by the election of Jos. O. Mauffray.

Approximately two hundred golfers from every section of the United States will participate in this pilgrimage, which has become recognized as one of the outstanding events of the year in the field of golf.

Nice championship golf courses are now maintained on the Mississippi Gulf Coast—four 18-hole courses and one 27-hole course. The Great Southern, an 18-hole course, was the first to be established. The first course established was at Biloxi, where 27 holes are now available for play. Others in the order of their establishment are Pine Hills, Gulf Hills and Edgewater Golf.

A sixth 18-hole course is now under construction at Pass Christian, near Henderson Point. The first nine holes of this course have been completed and the entire eighteen holes will open and ready for play during the coming winter season, according to the 5th Annual Convention of the National Golf Course, Inc., at Johns River, Ga., where the course was established as Pine Hills, Gulf Hills and Edgewater Golf.

The forthcoming winter season, with the exceptional facilities which the Mississippi Coast will offer to the golfer, promises to bring a great influx of visitors here.

SISTER CLAIRE NEW SUPERIORESS AT ST. JOSEPH ACADEMY

Sister Claire, Well Known For Nearly Quarter of Century at Local Convent, Receives Appointment From France.

Official notification was received from the Mother House in France this week announcing the appointment of Sister Claire as superioress of St. Joseph's Academy and Convent, Bay St. Louis, to succeed Mother Augustin, beloved local head, who passed away a few weeks since.

It was expected the recognition of long and efficient service would come to Sister Claire, who for the past twenty-four years has not only proven her ability and efficiency as a teacher of French, art and commercial studies, but of late years her worth as an executive, actively associated with the business affairs of the local institution has been demonstrated to advantage. She at once entered upon her duties as head of the local institution.

Sister Claire, accompanied by Sister Mary, at the local convent ever since, came to Bay St. Louis from France in 1903, arriving here on the third day of May of that year, and her connection with the local convent has been continuous ever since.

Last year she journeyed to France, her native land, and visited her parents and their family. The news of the appointment of Sister Claire to the rank of superioress will be received locally with interest and general satisfaction.

New Pleasure Resort For City.

Bay St. Louis' newest pleasure resort, "Swayze's Pavilion," on the south sea, at Washington street, formally opens tonight, Friday, August 26th, beginning at 8 o'clock. There will be a jazz band in attendance, and the public is assured a delightful time. "If the cool golf breezes fail to blow," says Mr. Swayze, "we will turn on a battery of fans to make it the coolest and most delightful place in town." There will be an admission charge of 75 cents for gentlemen and 25 cents for ladies.

put his in writing.Paying your subscription in the present week will  
entitle your children to read of your good works, as  
they might occur.Paying political debts is one man's way of voting.  
The best man theory doesn't work well with the machine  
candidates.The British are now trying to develop a plane that  
will make 300 miles an hour. That will be fast enough  
for some people.What has become of the old-fashioned parent who  
used to see that the children studied the Sunday school  
lessons regularly?These long distance hops are beginning to get tire-  
some. It won't be long now before it won't be safe to  
owe a man in another state.It will soon be time for the Bay St. Louis home own-  
ers to be looking into the purchase of some shrubbery  
for beautification.Local supporters of Gov. Murphree are justly jubila-  
nt over the splendid vote he received both in city and  
county in the second primary, a decided advance over  
the first.Plans are underway to organize the Biloxi High  
School Indians into another strong football squad for  
the season to begin shortly following the opening of the  
city schools. Coach T. L. Gabby, now umpiring in the  
Texas league, will have charge of the aggregation again  
this season.Suit has been filed in chancery court by Mrs. Mary C.  
Ladner against the Bank of Pass Christian, claiming  
that a \$500 note deposited in the Bank in escrow in con-  
nection with the settlement of a realty sale has been  
lost. The case is made returnable in the September term  
of court.Gulfport Chamber of Commerce directors in session  
Monday night made plans for extensive work under their  
jurisdiction. They will make an effort to raise funds  
for the American Red Cross budget and also have rep-  
resentation upon the "Know Mississippi Better Train."  
Routine matters were also discussed and adjusted."Know Mississippi Better Train" leaves today for  
its long trip West, including the California Coast. This  
is the first time the booster train will have a personal  
representative from Hancock county, and also an  
exhibitor. May God speed the "Know Mississippi Better  
Train."The Mississippi Oyster Commission will make an in-  
spection of the oyster reefs on the Coast tomorrow for  
the purpose of ascertaining the condition of oysters prior  
to the opening of the raw shipping season, September 1.  
Inspection will be made of the Biloxi, Ocean Springs,  
Pascagoula and Pass Christian reefs. The season for  
driving will not open until October 1.Every agency for improvement is a factor of de-  
velopment. The Mississippi Gulf Coast is to benefit  
largely by the inauguration of the St. Tammany Gulf  
Coast Airways, Inc., latest, flying daily from New Or-  
leans to Biloxi inaugurated Wednesday. From New  
Orleans, Biloxi, \$7.75; Biloxi to Gulf, \$3.50; Gulf  
to Biloxi, \$3.00; Pass Christian, \$7.75; Bay St. Louis, \$7.00.  
The plane is scheduled to reach Bay St. Louis daily at**IMPROVEMENTS SHOULD BE EN-  
COURAGED.**Every town or city could possibly have more im-  
provements if these were in any way encouraged. People  
are prone to embellish and improve; to construct is the  
natural tendency. More equitable assessments, moderate  
rate of taxation are vital factors, but there are many  
other considerations that would sponsor a building and  
general improvement program from time to time.The beautification of streets, building of sidewalks,  
less weeds, more gardens and general treatment of land-  
scape effects and the like are compelling. Another en-  
couragement is found in the community where the neigh-  
bor is willing and shows evidence of improvements.  
Yards grown with high weeds, delapidated and falling  
fences, weather-beaten outhouses are not encouraging for  
the other neighbor to build or improve.But a greater drawback than all of these, as nu-  
merated in the foregoing, is found in the lack of com-  
munity co-operation. There are persons, we hope none  
in this community, who decry every effort made forward  
to improve and build; a sort of socialist spirit born of  
jealousy and envy that has a blighting effect. It were  
better that kinder words and favorable comment were  
forthcoming instead. Encouragement of this kind has a  
telling moral effect. Boosting will get it; but knock-  
ing helps neither man nor the city in which he lives, nor  
others who live in the same community.**FLOOD VICTIMS.**Some weeks ago the newspapers were filled with  
stories of the damage being done by the great flood,  
which swept the Mississippi valley. As news of the dis-  
aster filled the country the hearts of the citizens were  
moved and they rallied to the assistance of the victims.  
An insistent demand arose that the federal gov-  
ernment provide protection and relief.Today the harrowing details are in the background.  
The busy world moved on and new sensations fill the  
press. The flood victims are crowded out of mind and  
many sympathetic impulses are forgotten. However,  
least we forget, and forgetting desist, the Red Cross is  
still caring for 130,000 victims of the flood, whose  
troubles are by no means ended.The cry for tax reduction continues, and the warning  
comes that it will not be possible if Congress is too lib-  
eral. Well, for one, The Sea Coast Echo does not want  
tax reduction at the expense of the Mississippi valley  
sufferers. They should be taken care of in an ade-  
quate manner. Nothing else will benefit the boasted  
prosperity and greatness of the American republic.**"WITH RESERVATIONS."**The action of Eamon de Valera, and the Fianna Fail  
Deputies, in taking the oath required by the Irish Free  
State, led some of us to believe that the republic would  
have a chance to work out its troubles in parliamentary  
battles. However, we understand now that the gentle-  
men who took the oath insist that it means nothing, that  
they took it with mental reservations.This kind of public business cannot be condoned.  
Any official who takes an oath "with reservations" is  
unfit to be an official. If the disgruntled Irishmen  
could not subscribe to the oath they were required to  
take they should have continued outside the government.  
Their action is in sharp contrast to that of Von Hinden-  
berg, the old German monarchist, who, when he took the  
oath to support the German Republic, had secured a  
release from his personal oath to the Kaiser, and made  
known, even amid the taunts of his old comrades, his  
determination to carry out the oath he subscribed to.**PAINLESS TAXES.**The Federal government taxed smokers \$370,666,  
438 in 1926. The joke is that most of them paid the  
tax without realizing what was being done. It is an  
illustration of taxation without pain.Take the average cigaret smoker of Bay St. Louis.  
When he buys a package of twenty cigarettes, the popular  
size, he does not realize that six cents of his money is  
being paid to the Federal government. Not knowing, he  
doesn't care.If his state government, however, comes along with  
a two or three cent stamp tax on the same package, as  
some of the states have done, the smoker howls to high  
heaven. He sees what is being done, it is new payments  
and he thinks he is being taxed to death.**TWO BIG LIGHTS.**Last Tuesday night the largest searchlight in the  
world, operating from Charlottesville, Va., turned its  
huge light on Monticello, the ancestral home of Thomas  
Jefferson, three miles away.This big light plays a beam of 1,380,000,000 candle-  
power. It can be seen, in fair weather, 200 miles away,  
and, in the beam, 1,000 miles. By its light a person  
fifty miles away may read a newspaper.Evidently, it is some light. Dedicated to Thomas  
Jefferson it serves to remind the world of another big  
light, whose rays have had much to do with creating  
and making this country great.**"THEIR OWN ACCORD."**An experienced detective in a large city ventures  
to explain why girls leave home. The question has been  
tackled many times and the new revelation is one of the  
kind that does not reveal.The police officer, whose work is with missing peo-  
ple, says that "the main difference between the miss-  
ing girls of today and ten years ago is that some years  
ago young girls reported missing were usually kidnaped  
or enticed away, while today they leave of their own  
accord."The question still unanswered is why do they want  
to leave?"Greater Biloxi Week," is being observed at Biloxi  
with special reductions offered by local merchants to  
citizens, visitors from the interior of the country and  
tourists. Special features are presented each day as an  
inducement to have visitors remain there throughout the  
week. The first annual long distance swim from Biloxi  
to the Isle of Caprice was held as a mid-week attraction.  
Local theaters are offering special programs and local  
civic organizations are co-operating with the merchants  
in making the week entirely successful.Edgar S. Wilson says people who ought to know are  
continuing to ask when the legislature, nominated last  
Tuesday, will meet. The legislators nominated Tuesday  
and on August 2, will be elected Tuesday after the first  
Monday in November, 1927. They will assemble at the  
new capitol at Jackson on Tuesday after the first Mon-  
day in January, 1928, which is the third day of the new  
year. Both branches of the legislature will organize  
and proceed to business. There is no time limit as to  
how long they shall be in session. They draw \$750.00  
for the session, whether the session shall be 60 days or  
six months, together with the mileage of 10 cents going  
and coming by the usual traveled route.The bookshelves of Bay St. Louis had a thrill last  
week. They read about the world's biggest flash light  
and just as they were getting warmed up they found  
another flash light.**This Week.**Some Drinking Figures.  
Egypt Controls Boll  
Weevil.  
Farm Loneliness Banished  
Science and Religion.  
BY ARTHUR BRISBANE.  
(Copyright, 1927)America's millions, who imagine  
they are thirsty for light, wine, beer  
or something stronger, will be inter-  
ested in this.United States capital has recently  
lent nearly \$300,000,000 to help for-  
eign countries develop their liquor  
and beer business. Even in the Far  
East this country has financed liquor  
production to the tune of more than  
\$5,000,000.Mr. Hayward Kendall, who repre-  
sents unorganized drinkers that  
ought to be saved from themselves,  
says: "The Eighteenth Amendment  
is saving American (in cash expendi-  
tures and increased efficiency) from  
six to eight billion dollars a year."The nation's purchasing power has  
certainly increased amazingly since  
prohibition came.In 1919 there were in America 6,  
500,000 automobiles. Now there are  
20,000,000, and not enough. The  
country spends half a billion a year  
on radio, many millions for washing  
machines, vacuum cleaners, electric  
refrigerators. Workers in America  
spend more lavishly than the rich in  
Europe.Mr. Kendall thinks it would be a  
national calamity if the outpouring  
of money were diverted from auto-  
mobiles and radio to wine and beer.While the boll weevil continues  
spreading in the United States Cairo  
telegraphs that:"The vigorous Government  
measures, the area affected by the  
boll worm has been considerably cir-  
cumscribed."Egyptian acreage affected by the  
pest has been reduced from 89,000  
to 5,000 acres. What Egypt can do  
this country certainly ought to do. We  
have the scientists, the money and  
the boll weevils. What is the matter  
with us?This news will not sell extra papers,  
like a Dempsey fight, but it  
will be important long after Dempsey  
and Tunney cease to be important.  
Pennsylvania State College has dis-  
covered that the vitamin B, so impor-  
tant to life, is manufactured by the  
cow in her stomach in great quanti-  
ties.Scientists put a little door into the  
"rumen," or second stomach of the  
cow, and deprived her of all food con-  
taining vitamin B. Nevertheless, in a  
little incubator in the second stom-  
ach the cow produced the precious vi-  
tamin B in profusion.  
That may mean to child life as  
much as the admirable fight against  
impure milk made by Nathan Straus.In cities people go crazy more fre-  
quently than they once did. Excite-  
ment, bootleg liquor and other things  
held. In New York State one per-  
son in every twenty-five has been in  
the insane asylum, according to the  
American Psychiatric Association.  
There is less insanity than former-  
ly among women on farms. Loneli-  
ness, that used to drive them insane  
by the thousands, has been softened  
by telephone, radio, parcel post, and,  
above all, the automobile.President Vinson tells young peo-  
ple of Western Reserve University  
that no conflict exists between science  
and religion; they occupy different  
fields. He wisely remarks that science,  
without religion, would lead to hope-  
less materialism, just as religion,  
when it denies the plain truths of  
science, leads to fanaticism and su-  
perstition.Religion and science are like as-  
trology and astronomy, or like al-  
chemy and chemistry.Astronomy started in astrology,  
chemistry started in alchemy, with  
experimenters seeking to make gold.  
Science started in religion. Men,  
questioning the origin of things, first  
gave a religious answer, everything  
based on miracles. Then they studied  
more closely and began giving sci-  
entific answers.All told 24,000,000 automobiles  
are in use in fifty-nine countries of  
the earth. The United States owns  
20,000,000 of the 24,000,000. The  
United States Commerce Department  
gives the figures. We have one au-  
tomobile for every six persons, Hawaii  
one to eleven, Canada one to thir-  
teen, Afghanistan has one to 1,200,  
000. Poor Afghanistan, happy Amer-  
ica. To have a motor is to defy the  
law of gravitation, and be a free man.**Letter From Supt. Bond.**Jackson, Miss., Aug. 18, 1927.  
Editor Sea Coast Echo:I have just returned from a three-  
day trip by automobile through the  
section of our state that was hardest  
hit by the flood waters of the Mis-  
sissippi river.Everywhere I went I was asked  
whether or not our appeal for second-  
hand school books had met with much  
success. This letter is to urge that  
all those who have old books lying  
around that will not be used next year  
to send them at once to your county  
superintendent of education.I feel sure there will be enough  
books to supply this summer in the  
state to practically furnish the  
books for the children of the flood  
district where they are so badly in  
need of the necessities of life.W. F. BOND,  
State Supt. of Education.**Pass Christian City Hall.**The interior of the new City Hall,  
says the Pass Christian Beacon, is tak-  
ing on the appearance of a very at-  
tractive building. John T. McDonald  
& Son, contractors, have about com-  
pleted the interior work and expect to  
turn the building over to the city this  
latter part of the week. The halls,  
doors, woodwork and ceiling in their  
finished form have a harmonizing ef-  
fect that nicely befits a building for  
municipal purposes.A fire of June 11th  
which just about gutted the building,  
have disappeared and the city fathers  
will soon have their old place in the  
municipal hall.**Hancock County Insurance Agency****INSURANCE**CASUALTY

Let Us Take Care Of Your Needs

A. A. Scalfide,  
S. L. Eugman, Agents.Phone 133  
Hancock County Bank**DR. FRANK CRANE.****DESIRE—KEEP IT EVER GREEN**That is a pretty good title. It is  
given to one of the recent Antioch  
College pamphlets and is very sug-  
gestive. There is nothing people need  
more in the world than desire. The  
great problem is not repressing de-  
sire or uprooting it, but properly  
nursing it.We need desire all our lives. No  
great thing was ever done by a man  
without a great desire.It was Napoleon's desire for fame  
that drove him forward, and Alexan-  
der's and Caesar's desire for conquest  
that actuated their efforts.Marriage is rarely successful with-  
out a great desire.A marriage merely for conven-  
ience, for money, for position, or such  
reasons, is usually a failure.There have been few business suc-  
cesses accomplished by those who had  
no desire to get forward, and few  
politicians achieve success without  
the proper amount of ambition.Behind the whole human race in  
every race is the thing we call de-  
sire. It is the steam of the human  
engine. It is the urge in human ac-  
complishment.People do not fail so much because  
they want the wrong things. Some  
do. But most people do not succeed  
because they do not know what they  
want or do not want a thing hard  
enough.Since desire is so essential in hu-  
man accomplishment everything  
should be done to conserve it. All  
these false aversions of which desires  
are easily satisfied without great ac-  
complishment are injurious.The chief trouble with drinking al-  
cohol is not its immediate toxic ef-  
fect upon the system so much as it  
is the fact that it gives us a sense of  
satisfaction without due effort. The  
peace and content and hilarity that  
come after a good drink of whiskey  
properly come after doing a job of  
work well. Those who are steady  
drinkers are very unreliable doers.The sex desire properly conserved  
and limited is the foundation of the  
home. If it seeks its satisfaction in  
other channels the home life is weak-  
ened.The efforts of mankind should be  
not to suppress nor destroy desire so  
much as to direct it into the prop-  
er channels and save its force for some-  
thing worth while.The greatest wasters are the wait-  
ers of desire. There is need of thrift  
in desire as well as in other things.  
You never know when you may want  
it.**Serving Humanity.**Many people of today are lament-  
ing the passing of the era when men  
and women dedicated their lives to  
the unselfish service and prepared  
themselves for the ministry, mission-  
ary work, school teachers or country  
doctors that might administer to the  
spiritual, mental and physical needs  
of humanity without worldly gain.In the olden days the country min-  
ister felt it was a sin to ask his con-  
gregation for money. The school  
teacher as inspired by the desire to  
enlighten the growing population and  
was willing to make the salary a sec-  
ondary proposition. Then again, who  
made greater sacrifices than the  
back or in buggy for many miles at all  
country doctor who went on horse-  
hours of the night regardless of  
weather conditions, to relieve the  
pain of some suffering human, not  
knowing or caring little if he ever re-  
ceived pay for his services.But people of today are coming to  
the belief the best way to help others  
is to produce much that their profit  
shall be large and that they shall  
never become dependent upon society.  
The old idea of service was direct  
and the new idea is indirect.A man lives to pile up millions and  
in his old age gives it away in en-  
dowment funds for the sake of his  
fellow man.**PROFESSIONAL CARDS****DR. D. H. WARD**

## Enormous Sums Of Money Invested In Railroad Equipment

In order to furnish the most efficient transportation service in all the world, American railroads must provide and keep in best operating condition, motive power and equipment, costing enormous sums of money (the total investment in equipment of United States railroads is about \$5,400,000,000 while the annual cost of keeping this equipment in perfect running condition approximates \$1,300,000,000).

Each year, large numbers of locomotives, passenger cars and freight cars are being retired from actual service and replaced by newer equipment—an expense made necessary by the normal wear and tear of a gigantic operating plant, coupled with the desire of the railroads to keep their physical equipment in the most efficient condition. It costs the L. & N. Railroad more than \$33,000,000 a year to keep its equipment in serviceable condition, and requires a constant working force of over 17,000 men.

## FROM AN ILLINOIS FARM Chapter Written in Gary Life Romance

From the cornfield of a poor Illinois farm some sixty years ago came a lanky, raw-boned youth, looking cityward—and for the opportunity to new out a modest success in life. His passing last week caused the world's present-day leading capitalists to pause, pay tribute to his greatness—and agree that through the ages no man ever had conceived greater industrial plans nor the driving force to make them successful.

That farm boy was Judge E. H. Gary, chairman of the board of directors of the United States Steel Corporation, a typical American. From the president of the United States down to the most humble worker in the corporation's great steel mills throughout the nation, Judge Gary was known as the grand old man of American industry. He was active and in absolute control of the great steel corporation up until his death—at 80 years of age.

Today on some American farm there possibly is some boy or youth who in the next sixty or seventy years may climb to greater success than came to Elbert Gary, as great as it was—because truly the United States is the land of opportunity where the sky is the only limit to achievement and ability knows no restrictions.

### Early Years on Farm.

Born on a farm near Wheaton, Ill., nearly 81 years ago, Judge Gary, in early youth, worked with his father tilling the soil in summer, going to school in winter. It was the farm which gave him that robust constitution that was with him to the end. Finishing grade school, he studied at Wheaton College, then to the University of Chicago Law School and back to Wheaton to practice. Twice mayor of Wheaton, then county attorney and then judge of the district court—he finally broke home town ties to move to Chicago and take up the practice of corporation law. Eventually he became counsel for the Illinois Steel Corporation—and soon guided the formation of one of the early steel combines, the American Steel and Wire Company.

### Judge Elbert F. Gary

The Illinois farm boy whose slogan, "It can be done," brought him success and made him the greatest leader in American industries. As Chairman of the Board of Directors of the U. S. Steel Corporation he directed the world's largest industrial unit, a two and a half billion dollar corporation. He was buried this week at Wheaton, Ill., age 80.

other combine. Three years later, Morgan gave Gary the money to organize the daddy of them all—the United States Steel Corporation—the first billion-dollar corporation the world had ever known.

### Built With Earnings.

Today that corporation is a two and one-half billion dollar organization, but is perhaps an actual three or four billion dollar corporation—built up out of earnings under the leadership of that former Illinois farm boy. It was done without multing the public or crushing competitors.

When the government started its dissolution suit against the steel corporation fifteen years ago, it was unable to prove that any complaint had been made to prosecution by any competitor, customer or employee—as to methods, prices or treatment in business. The suit was dismissed.

Judge Gary's working slogan always was: "It can be done."

When asked recently if he had ever smoked Judge Gary said:

"Yes—for about a year and a half while studying law at Chicago. But quit. I returned home to the farm at Wheaton for a visit and when I missed my mother she said: 'I love you—but not as much as I used to—with that tobacco smell on your breath.' Then I quit—even though it was hard—but I haven't smoked since."

### Where Leaders Come From.

It was just a glimpse of the human side of Judge Gary—and it reflected the value of good home environment—still prevailing in the American farm homes—and which, no doubt, accounts for the success of so many farm born and reared boys who have turned to the city for new worlds to conquer.

It has been stated that seventy per cent of the nation's leaders today, in trades and professions, are sons of poor parents—and a big majority of them from the farms and small towns.

### LITTLE ECHOES.

Gen. Wood's body is buried in Arlington with military honors.

Coolidge decides to push "moderate" navy building program.

World educators at Toronto discuss teaching Esperanto in schools.

### To Remove Signs.

Co-operation is being received from Mississippi Coast citizens in the removal of sign boards from the highways at the beach. The sign boards are being removed to make the highways more attractive and to make the highways more safe. The sign boards are being removed to make the highways more attractive and to make the highways more safe.

### W. W. Nye Passes Away At Waveland Home.

Mr. W. W. Nye died Tuesday morning at his home in Waveland. His body was shipped to Vaiden, Miss., for a Masonic burial.

Mr. Nye was seventy-six years old. He leaves a wife and four children, Mrs. W. W. Redditt, of Greenwood, Miss.; Mrs. D. C. Griffith and Mrs. Marjorie Acker, of Bay St. Louis and Waveland, and Mr. U. J. Nye, of Carrollton, Miss.

### Death of Charles Craft.

Mr. Charles Craft, a native of New Orleans, La., but formerly a resident of Bay St. Louis, died Sunday, Aug. 15th in Birmingham, Ala. The remains were shipped here and interred in the local cemetery, services being in charge of Rev. J. G. Gilmore, pastor of the First Baptist church of our city. The body was accompanied by a number of surviving relatives, among whom were two brothers, Hon. John Craft, of Mobile, who is a member of the Alabama State Senate, and Augustus Craft, of New Orleans, two sisters, Mrs. George Pique, of New Orleans, Mrs. J. D. Blakemore, and other relatives. Mr. Craft was a Presbyterian by religious faith, and lived a consistent life. Peace to his ashes and blessings be upon his surviving relatives.

### Home Accidents.

Accidents are bound to happen sometime in every home says the American Housewife. It may be months before there is need for first aid, but when the time comes the mother should be prepared. If she has learned how to use simple remedies which she has ready, she need have no fear until the doctor comes. The slightest cut or scratch should be treated with an antiseptic as a precaution against more serious trouble. It is the infection of wounds where the danger lies. Antiseptics are chemicals used to make wounds germ free. Tincture of iodine is one of the best. Two per cent mercurchrome is good. It is painless.

No board with rusty nails should be left lying around. In case of accident because of rusty nails, the wound should be washed thoroughly with a disinfectant. An antiseptic gauze should be placed over the wound and the foot bandaged. Call a doctor.

In case of a dog-bite a doctor should be sent for. The dog-bite should also be immediately treated with a disinfectant. An antiseptic gauze should be placed over the wound and the foot bandaged. Call a doctor.

In removing a splinter, a sharp needle should be used. It should first be sterilized in boiling water or in a flame and allowed to cool before using. After the removal of the splinter an antiseptic should be used on the wound.

In the case of burns, which often occur in the household, if the skin is not broken, cover the burn with a paste of baking soda. Keep this damp and bandage tightly. A blister should not be broken. In time the body will absorb it. If necessary to do so, use a sterilized fine sewing needle. When the skin is broken in a burn, cover the spot with carbol oil. Sterilized gauze should be used on a burn—never cotton batten.

### At Perusal.

She spent my vacation up in the mountains. He really did you have a guide? She—Well, only my conscience.

### Judge FOR YOURSELF.

(Contents of this column, copyright by Judge, "The World's Withest Weekly," and reprinted by special permission.)

Cyrl—That's papa and mamma but I don't speak to them on the street.  
"And the reason?"  
"Why, look at the car they drive!"

Sheriff—Did ye ketch that automobile thief?  
Deputy—He was a lucky bird. We had chased him only a mile when our 300 miles was up and we had to stop and change the oil.

The really suspicious wife is she who suspects her husband of leading a double life, just because he bought two pants suits.

Tom—Have you bought your girl question book?  
Jerry—Say, the only book that's got the answers to her questions is a check book.

Dizzy Labels.  
I call my wife sugar waffle, because she's so waffly cute.

Mr. William Randolph Hearst is said to believe that the entire world should adopt the English language. He might try it out some time in one or two of his newspapers.

According to a representative of the Clean Language League of America, the object of that organization is to take profanity out of the American home. A good way to go about it would be to first take out the radios and flippers.

"And there," said the Athenian guide, "is the Parthenon."  
"Gee," exclaimed the American tourist, "wouldn't it make a swell filling station?"

Fairy Tale.  
The defendant was pretty as a picture, so the jury voted to hang her.

Another thing this world needs is a grape fruit that can yell, "fore!"

Clarice (motoring)—I said you could kiss me, but I didn't say you could hug me.  
Wilbur—Oh, I just threw in the clutch.

Funnybones.  
It is proper now to classify women under the nuder gender.

Movie Star—Why did Roy lose his job with the company?  
Comedian—Well, some one told him to throw the dummy over the cliff and he thought they meant the director.

Young Husband—Dear, our budget shows a big deficit for last month.  
Wife—That's just fine! How shall we spend it?

Funnybones.  
"Thanks for the lift," said the woman, as she climbed from the plastic surgeon's chair.

## HANCOCK CO. REALTY TRANSFERS

### Record Realty Deeds As Recorded in Hancock County During Past Week.

### And Only an Appetizer.

"Wife—I can't find my last year's bathing suit."  
Husband—"Probably a moth ate it."

Seven papers, three in foreign languages, are published by one high school in New York.

A seaplane with life-saving apparatus is planned to aid airplanes which may be forced to land in the English Channel.

**This SMART NEW CAR**  
is as remarkable in  
quality as in performance

**fastest Four in America**  
mile-a-minute performance

**\$875**  
(FULL FACTORY EQUIPMENT) 4-DOOR SEDAN (NOT A COACH)

The Lowest Price  
at which a Sedan  
was EVER sold  
by  
**Dodge Brothers**

A mile-a-minute performer—the fastest Four in America!

One horse-power to every sixty-five pounds of chassis weight.

And this is only half the story! Here's a car that will look like new and travel like new long after most cars have passed into old age.

The answer is quality—Dodge Brothers quality! Quality materials and construction unequalled by many cars hundreds of dollars higher in price.

Built to give trouble-free, economical service over a long period of time.

Longest springbase of any car under \$1000.

Smart new bodies—beautiful lines. A brilliant performer at the lowest price for which a Sedan was ever sold by Dodge Brothers!

BREATH & CUE, Dealers  
Main and Front Sts., Bay St. Louis, Miss.

**DODGE BROTHERS, INC.**

## COMMENT ON SPORTS

The big league fight has come to the point where the Yankees are conceded the pennant. This is as certain as anything can be that remains subject to correction. Mathematically, the others have a chance; actually, from past experience it doesn't happen.

In the National circuit the Chicago Cubs have the big lead, but within possible shooting distance are three contenders. With the Pirates, Cubs and Cardinals in the middle of an eastern invasion the chances are that all will do well. New York, alone of the eastern teams, has a chance to do as well, but the westerners will come out mighty good on the trip as it takes more than one team to repel such an attack.

Chicago's lead, when this is written, is five games. That is worth having, but it is not conclusive. Behind the leaders you find not a single team but three with a chance and the chances are that at least one of the three will make it fairly well before the world series' bacon can be accurately awarded.

Speaking of the Pirates, all remember the fiasco that wrecked their

chances last August, and the other day one of the managers said the offense had to be fixed \$50 for what? For not sliding into a bag? If you have to fine players to try to win games what does that spell as to the aggregation's morale?

Babe Ruth and Lou Gehrig continue to hammer home runs, but the Babe, who is a writer, admits that Columbia Lou will probably topple his all-time home run record before he stops. Babe recognizes that Gehrig got started earlier than he, and will last longer. That's all there is before the managers find another to it, although many moons will elapse George Herman Ruth.

Jim Maloney went out of the fight picture last week when George Godfrey negro, punched him to sleep at Philadelphia. Until Sharkey stopped him at New York Maloney was figured by many to topple the crown from Tunney's brow. Well, it's all over now.

The big fight at Chicago continues to attract what Tex Rickard likes to call the cash customers. The box sale is already reaching into high figures and the gate is now estimated to reach \$3,000,000.00.

## Tulane Gridders Have New Spirit In Bernie Bierman

The Greenies of Tulane University, New Orleans, this autumn will start out with new spirit in an endeavor to regain the prestige and glory that only a short time ago they achieved under Clarke Shaughnessy, but lost in a whirl of disasters last year, says an Associated Press dispatch. Bernie Bierman, for the past two years head coach at Mississippi Agricultural and Mechanical College, will be the principal factor looking for the redemption.

Bernie, succeeding Shaughnessy, finds himself no stranger as he arrives at the New Orleans campus. For two years in 1923 and 1924, he served as assistant coach here, instilling Minnesota tactics into the huskies. Then Shaughnessy and Bierman worked one side either a coach as they had played together at Minnesota. The chance at Tulane came and he went to fill it. As he returns, however, he finds but a frail remnant of the team which Shaughnessy steered through a rocky schedule in 1925, to a place among the undefeated Southern conference teams.

It will be necessary for him to virtually build an entire team. With the exception of a few men brought over from last season, the Wave will go out untried next month.

During the two years that Bierman was with Mississippi A. & M. he built up teams that were noted for their fighting qualities. In the yearly contests with Tulane, one of his teams defeated the Greenies.

Bierman was a captain in the United States marine corps during the World War.

## Short Course For Negro Boys' and Girls' Clubs Held at Jackson, Miss.

The State Short Course held at Jackson, Miss., for Negro Club boys and girls, was quite a successful one. There were more than 317 boys and girls present, 30 farm and home agents, 3 supervising agents, 20 club leaders and quite a large number of visitors.

Special training was given in bread making, butter making, hat making, dress making and poultry. This training ended in contests.

Three girls represented Hancock county and out of thirty counties represented Leola Travis, of Hancock county, won third prize in bread and hat making. Edna Norman, third prize in health.

Mrs. Virile Moody Lindsay, former agent of Hancock county, now traveling specialist for Douglas Cotto company, and Mrs. Lula Toler, bread specialist of Pine Bluff, Ark., assisted with the training and judging of these contests.

Because of such splendid results accomplished by the club boys and girls, Piney Wood school gave twenty scholarships and the president of Jackson college gave \$100.00 to be divided between ten boys for project purposes.

A half-mile parade, made up of club boys and girls led by Piney Wood's band, formed at the Old Capitol building, marched down Capitol to Jackson college. Through the kindness of the mayor the street was opened at 10 o'clock sharp. The parade was quite an asset to the work.

Some Other Time.  
She—'I'm sorry to disappoint you, but I became engaged to Dick last night.  
He—Well, how about next week, then?

Simeon Jessup, 84, saved a drowning boy at the risk of his own life at Hull, Eng.

## NEW COMEDY COMING SUNDAY &amp; MONDAY HAS TWO NOVEL FEATURES

Boasts Screen's First Great Feminine Comedy Team and "Concentrated Character Cast"—Is One of Season's Most Amusing Films.

The screen's first great feminine comedy team and a "concentrated character cast"—these are the novelties presented theatergoers in "The Callahans and the Murphys," Kathleen Norris' famous novel in which every character was a principal one—and which idea has been cleverly developed in Metro-Goldwyn-Mayer's filmization of the book.

Marie Dressler and Polly Moran are teamed in a series of the most comical incidents ever portrayed on a screen, and are co-featured with Sally O'Neil and Lawrence Gray.

Each player in the hilarious new comedy of Irish life was "handpicked" for the particular role by measuring every actor and actress by the yardstick of the book itself. Thus Miss Dressler, famous stage comedienne whose "Tillie's Punctured Romance" launched Charlie Chaplin to fame, was brought all the way from New York for the role of the redoubtable Mrs. Callahan. Miss Moran, well known for her inimitable character roles, was chosen to play the diminutive and irascible Mrs. Murphy, and Miss O'Neil, fresh from her triumphs in "Frisco Sally Levy" and "Becky," was chosen as the piquant heroine, Ellen Callahan. Lawrence Gray was borrowed from Famous Players for the role of Dan Murphy, Sally's lover, after a canvass of many leading men.

"In other words," explains George Hill, who directed the new picture, coming to the A. & G. Theater Sunday and Monday, August 28-29th, "we tried to build up the two families by finding characters to fit the story instead of making the story fit the characters, knowing the story was written from actual life. Frances Marion, who scenarized it, made the book fairly live, and also aided in choosing the cast. We wanted it to be funny—but human."

The new picture is a series of hilarious comedy episodes, in which fights, feuds, an Irish picnic and varied comic trials and tribulations among two New York Irish families are the background for a tender little romance between Miss O'Neil and Lawrence Gray.

Hill, the director, is the man who directed "Tell It to the Marines," one of Metro-Goldwyn-Mayer's notable successes of the year. The production was elaborately staged, with a graphic replica of one of the famous Hibernian picnics, the New York elevated, New York tenement districts and other striking details.

## MISSISSIPPI INDUSTRIAL REVIEW.

Gulfport—Bank of Gulfport moves to new quarters.

New Albany—Milk receiving station established here.

Tupelo—\$100,000 building to be erected corner Broad and Troy Sts.

## World's Lowest Ton-Mile Cost

Tens of thousands of users have learned by actual comparison that Chevrolet provides the lowest ton-mile cost\* in the history of the commercial car industry! Come to our salesroom and learn for yourself how Chevrolet is designed and built to save you money. Note the advanced, modern engineering—typified by a powerful valve-in-head motor, with three-speed trans-

mission and sturdy single-plate disc-clutch. Mark the rugged, quality construction throughout; heavy channel steel frame—massive banjo-type rear axle—long extra-leaved, heavy steel springs, set parallel to the frame. Go for a trial load demonstration—and see how perfectly Chevrolet meets your own haulage requirements. If you do that, the next truck you buy will be a Chevrolet!

\*Ton-mile cost is the cost of transporting a ton of material one mile—or its equivalent.

1-Ton Truck Chassis \$395

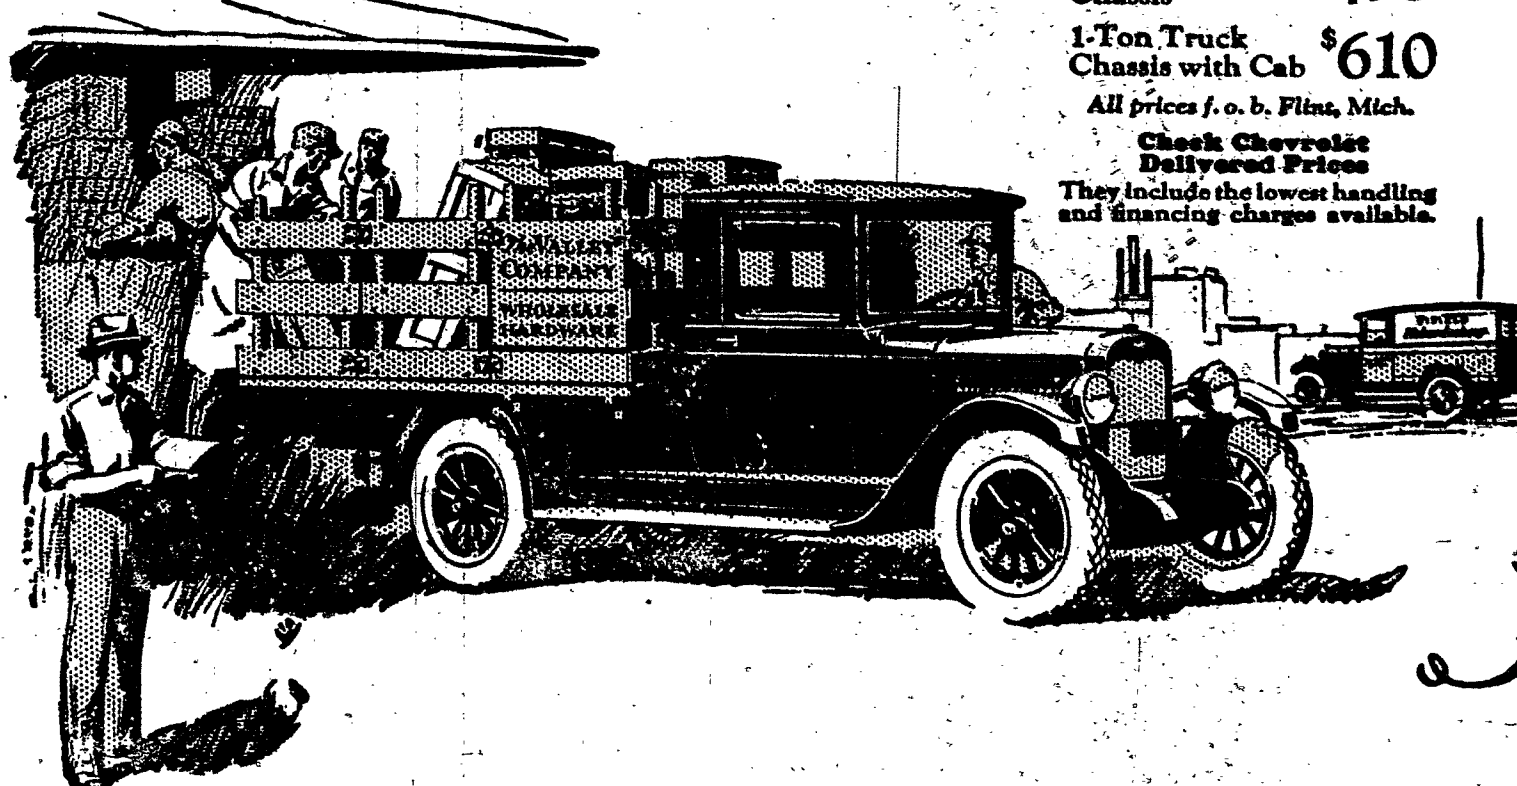

1-Ton Truck Chassis \$495

1-Ton Truck Chassis with Cab \$610

THE WORLD'S LARGEST BUILDER OF GEAR-SHIFT TRUCKS

CLEAN GAS

TOUGHER OIL

# Developed to Meet Today's Motoring Demands

TODAY'S high-speed motors out-perform any we have ever known. But more explosions per mile, more wear on moving parts, put new demands on fuel and lubrication. Never before has it been so important to have clean gasoline and tougher oil!

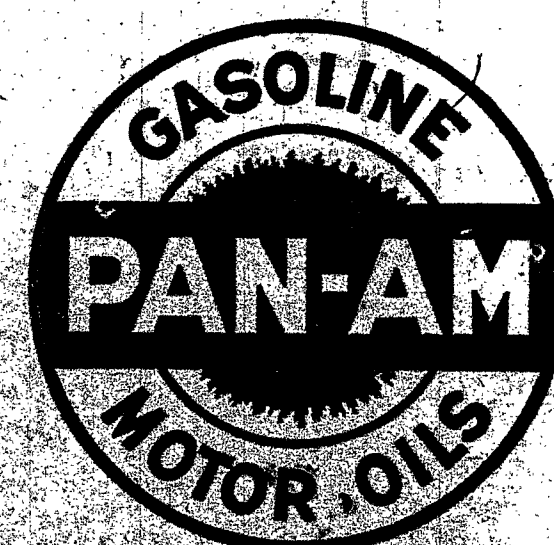

That is why Pan-Am gasoline is refined with such unusual care; and Pan-Am oil improved.

This clean gasoline is entirely free from dirt and sediment. Notice how crystal-clear it is next time you see a Pan-Am pump. More than this, Pan-Am gasoline is also purified to remove the invisible corrosives and carbon-forming elements found in many gasolines. Thus it keeps your motor cleaner; besides giving your car new power and better mileage.

And the improved Pan-Am oil is made especially from a paraffin-base crude to stand

the gaff of added heat and friction. It is a tougher oil that holds its body mile after mile. Thus it adheres to cylinder walls and bearings effectively; reducing wear and adding power.

You'll find motoring more enjoyable and less expensive, if you demand these better products. They are sold under one name, by your regular Pan-Am dealer,

Pan American Petroleum Corporation

## A. & G. THEATER,

### Sunday-Monday, Aug. 28-29

No Advance In Prices

#### The Sea Coast Echo

##### CITY ECHOES.

—The Blue Ribbon Confectionery is open each night until after the show.

—When you want Special Orders for Cakes, Pies and Pastries call the Blue Ribbon Confectionery one day in advance.

—The Blue Ribbon Confectionery on the beach, opposite the Telephone Office, opened for service last Saturday. Come in and give us a visit.

—Mr. and Mrs. Sidney W. Prague and little daughter, Vivian, have gone to Covington, La., where they are spending a while, members of a house party.

—If you want Cakes, Pies, Pastries and Blue Ribbon Bread, The Blue Ribbon Confectionery, opposite the Echo Bldg., on the beach—at your service.

—For Sale: Motor Boat, Kiddy Koo, Baby Bed, Massive Solid Oak Dining Room Suite. All above in first-class condition. Apply John Osoinach, 212 S. Front St.

—Mr. and Mrs. Tudor B. Carre and children returned to New Orleans Monday morning, after a visit of two weeks, occupying one of the new dwellings in Beautiful Bay St. Louis subdivision, leaving with reluctance.

—Capt. Ernest W. Drackett returned a few days since from a trip to Donaldsonville, La., making the trip from and to New Orleans by auto, and in the interest of negotiations for the Mississippi river franchise and equipment at that point.

—Miss Forest Flick, former resident, but now of New Orleans, is spending a while in Beautiful Bay St. Louis, the charming young guest of her friend, Miss Yvonne Lacoste, at the E. J. Lacoste home on the South Beach front.

—Mrs. John D. Mollere, accompanied by her daughter, Laverne, and father, Mr. Howard Sylvester, left Tuesday by motor route to Olyde, Miss., where they will spend from one to two weeks, visiting at the home of relatives.

—Mrs. C. Delhonde, of Jacksonville, Fla., and granddaughter, Marion Derickson, after a visit to relatives and friends in New Orleans, are spending a while in Bay St. Louis, visiting at the home of Mr. and Mrs. E. J. Lacoste.

—Miss May H. Edwards recently returned from a stay of several weeks in Chicago, where she attended the summer course at the University, specializing in branches pertaining to her work. Miss Edwards will continue as one of the instructors at Miss McChes's School, New Orleans.

## Added Attractions

## A. & G. THEATER,

TUESDAY AND WEDNESDAY, AUGUST 30-31.

BORN AND MILLER, BAKER AND ROSE IN

### "Bits Of Song and Dance"

Change Each Night. Special Feature Programs.

On the Screen:

MARIE PREVOST AND HARRISON FORD IN

### "THE NIGHT BRIDE"

News Reel and Comedy Feature.

ADMISSION, 40c.

CHILDREN 15c.

—Miss Yvonne Lacoste celebrated twenty-four of her young friends Monday evening at the home of her parents at a birthday party. The principal feature of which was a "treasure hunt," and which proved a source of many thrills and surprises. The games were unusually clever and furnished any amount of interest and seemingly no end of pleasure.

—Mrs. Victor Camors, accompanied by her young son and daughter, Robert and Alice, left recently for New York, Montreal and ultimately for Quebec, Canada, where they are spending the greater part of their journey to foreign land. They have an interesting trip planned and report to local friends they are enjoying every moment of their travels.

—Mrs. W. J. Gex and son, Mr. W. J. Gex, Jr., left Thursday for Abbeville, La., where they will spend a while visiting Mr. and Mrs. Eldridge and Miss Josephine Eldridge, at the family home. The marriage of Mr. Gex and Miss Eldridge will occur the latter part of next month, and will be a prominent social event representing two states.

—The Echo acknowledges receipt of a special invitation to attend the formal opening and dedication of the new L. & N. railroad station at Edgewater, La., on Saturday, August 27th, from 2 to 5 p.m. Mayor Kennedy, of Biloxi and Mayor Miller, of Gulfport, will be special guests of honor. Cost of station is reported at \$75,000.00.

—Mr. and Mrs. P. J. Lacoste, of North Front street, left for New Orleans since for New York City, where they will visit a while, and will spend the later summer in the metropolis, combining business with pleasure. On their return to Bay St. Louis they will visit Mr. and Mrs. Asher and North Carolina mount points, where they will spend part of the early fall.

—Tuesday's election in Bay St. Louis passed off without the slightest untoward incident. The weather was ideally beautiful, sunshiny and cool, and many voters turned out. The poll was located in the Board of Supervisors' room and in charge of Leon B. Capdepon, Arthur Scalfide, George J. Toca, Grady Perkins; W. H. McDaniel, peace and returning officer.

—Mr. and Mrs. E. J. Arsenaux are receiving the best wishes and congratulations of their friends on the occasion of a recent addition to their family, a happy home of beautiful and interesting children. Mr. Arsenaux is general superintendent of the local Ford sales and repair garage for Edwards Bros., identified with every public move and an all-round good citizen.

—W. Bell, of the faculty of the University of Mississippi, accompanied by Mrs. Bell, have returned to their home at Oxford, after a visit of several days to Dr. and Mrs. C. M. Shipp at the family home on North Front street. Former visitors to Bay St. Louis they have quite a number of friends who were glad to welcome them back and regretted to note their departure.

—The news of Eugene Fly becoming a candidate for Congress from this Sixth Congressional District, will be received with interest from the numerous friends of Mr. Fly over the entire district. For thirteen years he was practically Pat Harrison's right hand at Washington, while serving in the capacity of secretary; thoroughly acquainted with duties and every phase of the all-important office.

—Opening the Blue Ribbon Confectionery and refreshment stand on Saturday last, in the building on Front street, formerly occupied by R. McWilliams, Inc., realtor, Mrs. J. Hood has met with considerable favor and patronage. A full supply of bread and pastry from the J. J. Fordinal Blue Ribbon Bakery is received fresh daily and on sale the same as at the main store on Main street.

—Mr. and Mrs. Luther Ansley, Jr., from Denver, Colorado, accompanied by their three interesting young children, are spending a while in Bay St. Louis, visiting at the home of the former's parents, Mr. and Mrs. Ansley, in Carroll avenue. They motored over the long journey and report an unusually fine trip. Mr. Ansley had last visited here in 1918 and it is hardly necessary to state what vast improvements had been made both in the county and city.

—Mr. John Osoinach, accompanied by Mrs. Osoinach, returned home Monday evening, after a stay of two weeks spent in New Orleans, visiting at the home of Mr. and Mrs. Osoinach recently turned over his business to his son, Mr. Henry W. Osoinach, who is now in active charge, and this is the first vacation without taking a long trip that he has had in many years. He plans to motor to California with part of his family in the early fall.

—Mr. Earl Rhorer, who has been spending the past several months at Kerrville, Texas, accompanied by his family, returned to Gulfport a few days since, and was a visitor to Bay St. Louis Wednesday. His many local friends were glad to greet him again, and noted with interest his return to perfect health. Mr. Rhorer, having sold out his Gulfport business before departure for Texas, is planning to again locate in the Gulf Coast, his stay-away impressing all the more the attractiveness and advantages of the Mississippi Gulf Coast.

—Mrs. John N. Stewart, owner of "The Answer," most original and unique tea room and gift shop on the Gulf Coast, and conducted with the graciousness and charm of the true hostess by Mrs. Orrie N. Pollard, gave the first of a series of teas to the invited public Monday afternoon, and will entertain at another this Friday afternoon, the 28th. Under new management, "The Answer" is destined to prestige and subsequent success, and the fact many casual visitors and other callers are welcomed daily easily and conclusively attests to the popularity of the place.

#### HEAVY REDUCTION OF ASSESSMENTS

"We have made a heavy reduction of assessments to all city property this year," said Mayor G. Y. Blaize, to a reporter of The Echo this morning, "and, where we can, we intend to do so. We shall endeavor to keep down the burden of taxation."

Continuing the Mayor said: "Last year we were forced to do so to meet expenses we will not have this year. We were compelled to do so in some instances, but we intend to keep down the burden of taxation."

Heavy purchases of sewer pipes and other material will not be necessary this year, he said.

## PRESIDENT CHARLES H. MARKHAM VISITS ENTIRE MISSISSIPPI GULF COAST

Chairman of I. C. R. R. Board on Tour of Inspection From Bay St. Louis to Pascagoula—Charmed With Climate and Activities.

After having visited the Mississippi Gulf Coast repeatedly during other seasons of the year, Charles H. Markham, chairman of the Board of the Illinois Central System, made a special trip to the Coast from Chicago this week in order to gain firsthand impressions of conditions here during the height of the summer season.

"While I have been on the Coast repeatedly and know its charm to the winter visitors I wished to become better acquainted with the climate and activities of the summer season here, and therefore planned this special trip," said Mr. Markham to Warren Jackson, managing director of the Mississippi Coast club, in a conference prior to his return to the North yesterday.

"There is every warrant in advertising the Mississippi Coast as a year-round playground. The weather here, tempered by the trade winds from the Gulf, has been ideal all through my stay and I can readily understand why people throughout the Southland have for so many years chosen this spot for their vacations.

In company with T. E. Harris, general agent for the Illinois Central System, Mr. Markham made a tour of the entire coast region from Bay St. Louis to Pascagoula, inclusive, during which trip he viewed the progress which has been made in the public and private development program since his last visit. There is every warrant for deep-rooted confidence in the Coast," said Mr. Markham. On every hand is evidence of stability, while it is generally recognized that there has been some lessening in the activity of the real estate market throughout the entire country view of the whole situation in a comparative way there is every justification for satisfaction with conditions prevailing here. The Coast is fundamentally sound and there can be no question as to its future."

Mr. Markham further expressed particular gratification at the progress which has been made with the seawall and bridge building program. He commented favorably on the plans which have been adopted for the seawall at Pascagoula, Ocean Springs and Bay St. Louis and emphasized the importance of these projects in giving proper balance to the Coast's development.

The advancement which has been made in the construction of the Bay St. Louis and Pascagoula bridges prompted his commendation and he manifested a keen interest in the progress of plans for the building of the Biloxi-Ocean Springs Bridge.

"One of the real delights of my visit here was a round of golf at beautiful Gulf Hills with Senator Pat Harrison," Mr. Markham said. "I had seen all the other splendid courses before and know what they are comparable with the finest to be found anywhere. I was pleased to learn from first-hand experience of the alluring appeal of the Gulf Hills course."

Another thing which impressed Mr. Markham specially was the entire absence of the mosquito, concerning which subject he made particular comment. Even in the tall grass of the "rough" where it repeatedly was compelled to assist Senator Harrison, who ordinarily plays a fair game, to retrieve his ball and where, as every golf knows, such pests if they are around at all always congregate in all their glory, not a single mosquito appeared on the scene to spoil our enjoyment on our play."

Mr. Markham noted the interest along the Coast in beautification and zoning work. "I have noticed this in the right direction with pleasure," said Mr. Markham. "The shore line of this region is priceless heritage which should be preserved and this splendid work deserves the whole-hearted support every one is giving the Coast Club's efforts to foster it."

## A. & G. Theater

#### "CUPID UP-TO-DATE" ATTRACTS MANY AT SCHOOL HOUSE

Attractive Performance By Local Talent Scores Heavily—Play Delightful Comedy—Parts Cleverly Interpreted.

A large and appreciative audience at Central School auditorium Friday night witnessed the performance of "Cupid Up-to-Date," a delightful comedy, cleverly interpreted by Bay St. Louis talent, with Beatrice Smith and C. J. Gordon portraying the roles of the young lovers, while Marion Ingram impersonated Cupid, a part demanding much throughout the play.

Miss Beatrice Smith, talented young daughter of Dr. and Mrs. A. P. Smith, endowed with no limited amount of histrionic ability, was fully equal to her part, winsome and clever she was repeatedly applauded.

"Cupid Up-to-Date" was presented under the personal direction of Miss Edith Foster, representing the Wayne B. Sewell Company, of Atlanta, and under the auspices of the Parent-Teacher association, of Central school, for benefit of the club's cafeteria equipment fund. Mrs. C. C. McDonald, president of P. T. A., was most efficient in the management of the benefit and in a great measure to her efforts are due the financial success. Miss Foster trained the players and performed her work within a comparative short time considering the excellent results obtained.

Local talent was displayed to advantage and in all the entertainment proved most pleasing.

Mr. Arthur Scalfide and Miss Ethel deArmas, were outstanding in their character parts; Mrs. Earl Russell portrayed an unusual and prominent role as Senator Bing, William Banks as Father Time, and Bennie Hill as John Scientist, both had leading parts winning for their efforts plaudits; Miss Genevieve Green, as Common Sense, portrayed another leading and outstanding part, which was well received, while Miss Lela and Lucille deArmas were most pleasing as the Cross Puzzle Twins, Junior Glover and Frank Ramond, too, scored as twins.

The cast follows:  
Cupid..... Marion Ingram  
Father Time..... William Banks  
Common Sense..... Genevieve Green  
Bully..... Arthur Scalfide  
Domestica..... Ethel de Armas  
Dolly Extreme..... Beatrice Smith  
Will Steady..... C. J. Gordon  
Senator Bing..... Mrs. Earl Russell  
John Scientist..... Bennie Hill

Twins..... Lucille de Armas  
Dora..... Lucille de Armas  
Eddie..... Junior Glover  
Freddie..... Frank Ramond

PALMER A. LOTT TO LEAVE SATURDAY FOR PARIS, FRANCE

Local Resident, Head of Clement R. Bontemps Post, American Legion, to Represent Hancock County at Legionnaire Meet.

Palmer A. Lott, commander Clement R. Bontemps Post, American Legion, of this county, will leave Bay St. Louis Saturday for New York en route to Paris, France, where, as official delegate, he will represent the local post at the Legionnaire convention, U. S. A., to be held in Paris.

He will sail on the St. Antoine, of the Cunard Line, and will be in Europe over a period of eight weeks from Paris, visiting France and other continental countries.

#### Young Writer Visiting City.

Miss Dolores Lila Martinez, of 1239 St. Louis avenue, New Orleans, a native of the Mississippi Gulf Coast, is spending a while visiting in Bay St. Louis, and is stopping with Mrs. J. C. Bordages and daughters, on the beach front.

Miss Martinez, only 19 years of age, as a writer already has a national reputation, her story "Rival Blondes," receiving recognition from the press of the country, along with other stories and poems. Many of her stories and poems have appeared in such publications as College Life, Larat Poetry Magazine, New Orleans Item and Tribune, New Orleans States, Cartoons and Movies, Fawcett Publications, Art Lovers' Magazine, Bulletin of Pharmacy. Miss Martinez will write of Bay St. Louis and possibly a story will be here, the scenes of which will be local.

#### Card of Thanks.

I wish, through the columns of The Sea Coast Echo, to thank one and all who voted for me in the recent primary election on the occasion of my candidacy for sheriff and tax collector of Hancock county, and to any and all who in any way helped me to get the large number of votes received, both in city and country.

To those who did not vote for me I entertain only the kindest feeling, realizing each and everyone is entitled to the right of their own opinions and feelings.

I also wish to take this occasion to say I will be a candidate for sheriff four years hence, and here announce my candidacy.

Gratefully and respectfully,  
GLADY MONTE  
Bay St. Louis, Miss., Aug. 24, 1927.

#### CITY SCHOOLS TO OPEN SEPT. 12

Final touches to the grounds of Central School premises are in evidence these days, preparatory to the formal opening September 12th, for the 1927-28 session.

The unsightly frame building used as a tool and store house in front of the school has been demolished and the grade of the front yard is raised by a substantial filling of dirt. Levelled and cleared of all signs of debris, the handsome new building appears to greater advantage.

#### CARD OF THANKS.

To the voters of Beat No. 2: Through the columns of The Sea Coast Echo I wish to thank the good people for their liberal support, and as their Supervisor in future I hope to be able to serve one and all alike. I will endeavor to do all I can.

Very truly,  
JOHN B. BROWN.  
Nicholson, Route No. 1.
